Climate (in)Action Challenge
PARTICIPANT JOURNEY

CLIMATE (IN)ACTION CONTEXT DAY

1. Climate (in)Action Challenge Briefing
   - The focus of the context day at the Museum of Making is to understand the history of making, the Climate (in)Action brief, considering the user to make meaningful solutions, and framing responses to the challenge.

2. Developing Understanding

3. Introduction to Making

4a. Understanding the user

4b. Designing for people

ACTIVITY IN SCHOOL

5. Generating & Selecting Ideas

6. Modelling & Prototyping

MODEL & PROTOTYPE

This phase is an opportunity to bring your idea to life and testing how it works in practice.

THINK & IMAGINE

This phase is about thinking big and being experimental.

DEFINE & UNDERSTAND

This phase of the challenge is about being open and working collaboratively to help you understand how you will respond to the challenge and who your solution might help.

SHARE

7. Telling your Story

This phase is your opportunity to tell people about your idea and what you learned in the process.

A day at the Museum of Making to shout about the journey and the solution to the challenge.
